ORDER NO.

SUBJECT:

[DOCKET NO. 2018-72-E](#) - Application of Duke Energy Carolinas, LLC for Approval of Rider 10, Demand-Side Management and Energy Efficiency for 2019 - Staff Presents for Commission Consideration Duke Energy Carolinas, LLC's Request for Expedited Consideration of the Amended Application for Approval, without Hearing, of Rider 10, Demand-Side Management and Energy Efficiency for 2019.

COMMISSION ACTION:

Move that we approve Duke Energy Carolinas, LLC's Application for approval of their Demand-Side Management ("DSM") and Energy Efficiency ("EE") Rider 10, subject to adjustments made by the Office of Regulatory Staff. Based on its review of the Company's filing, the ORS concluded that the programs are performing well, and that the Rider was developed in accordance with the terms and conditions set forth by this Commission and based on reasonable estimates of participation in the Company's DSM and EE programs.

This rider shall be effective from January 1, 2019, through December 31, 2019. Accepting the ORS adjustments, the average residential customer using 1,000 kWh per month would experience an increase of approximately 71 cents per month. The main drivers for this increase in the residential rate are the recovery of uncollected balances (or "true-ups") and increased participation in, and increased effectiveness of, the programs. Mr. Chairman, I recommend that the company consider the parties' comments on this docket as it evaluates and implements its DSM and EE programs.
